

Line: pressure on retained segments

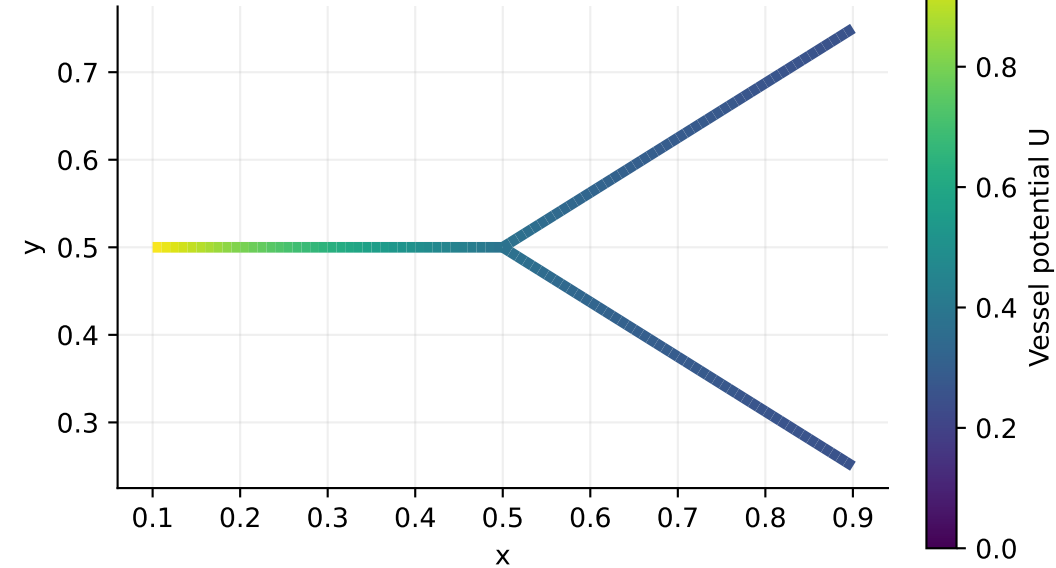

Identical 0.02-long gaps

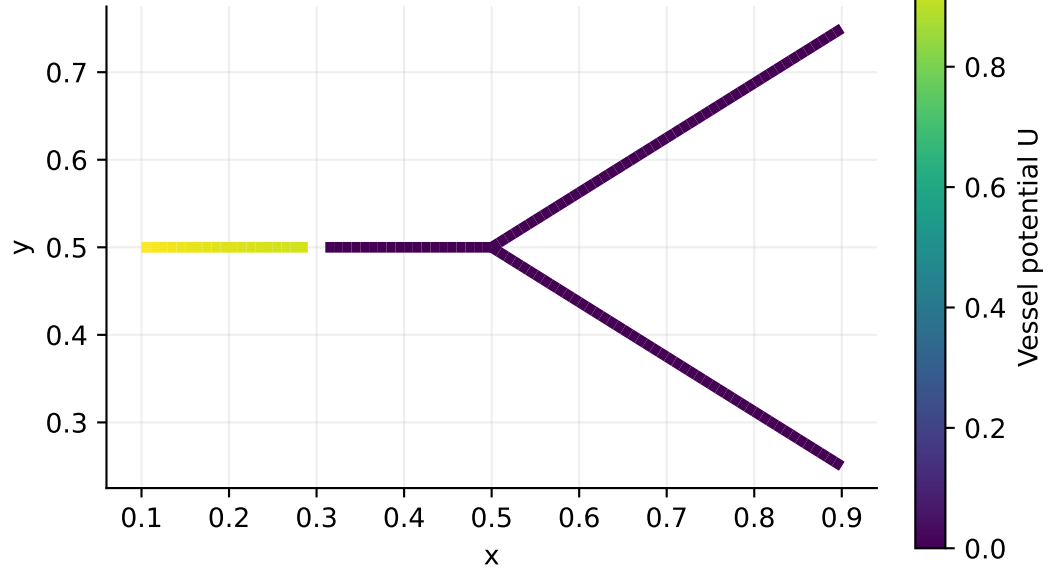

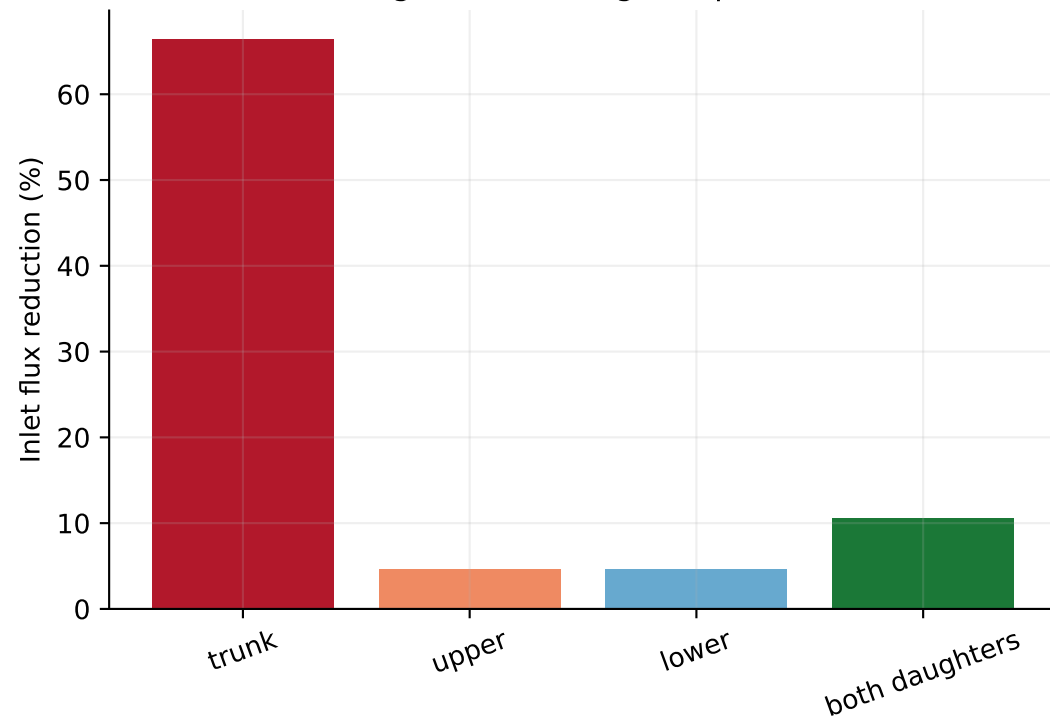

Intact Y

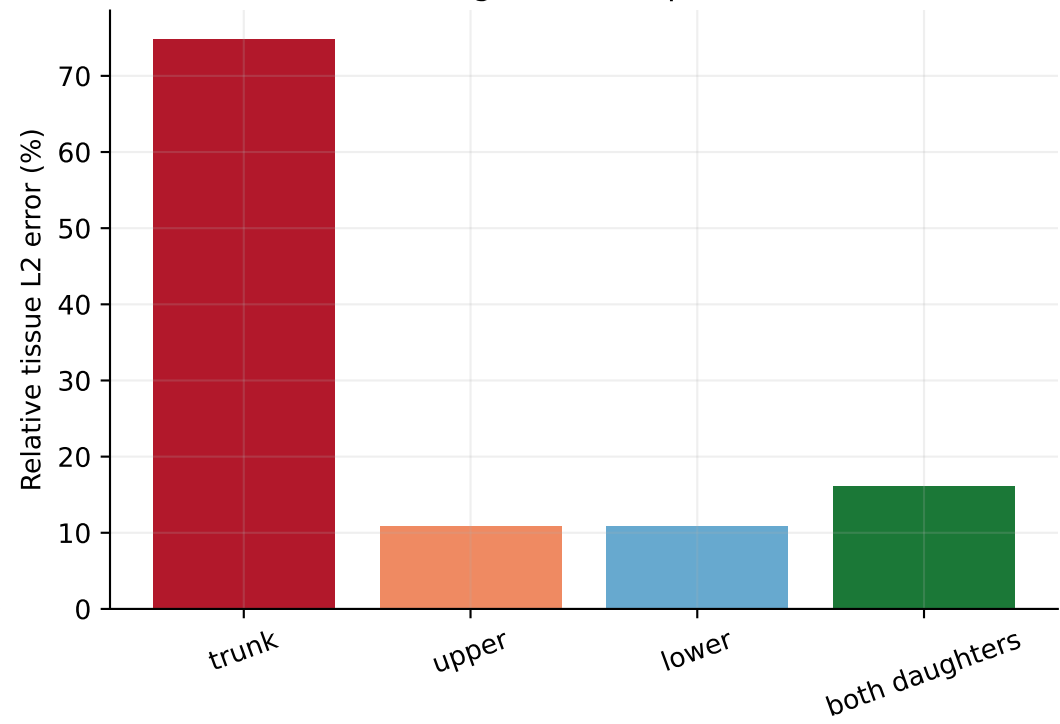

Y with trunk gap

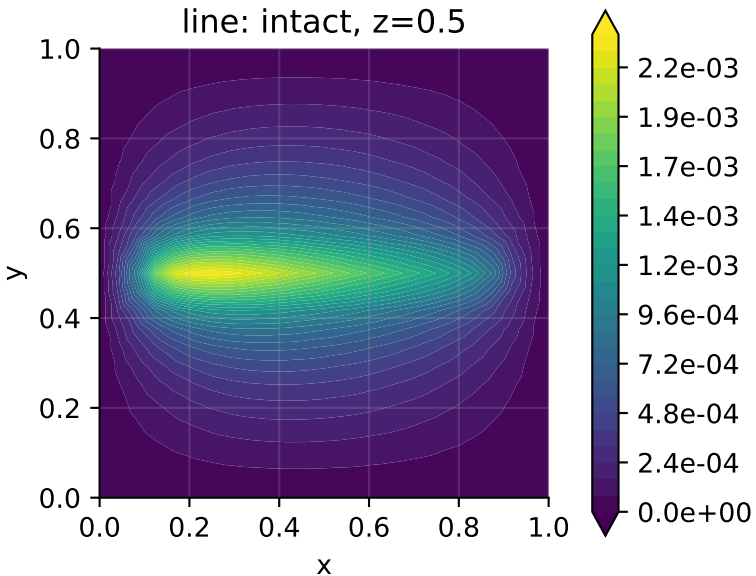

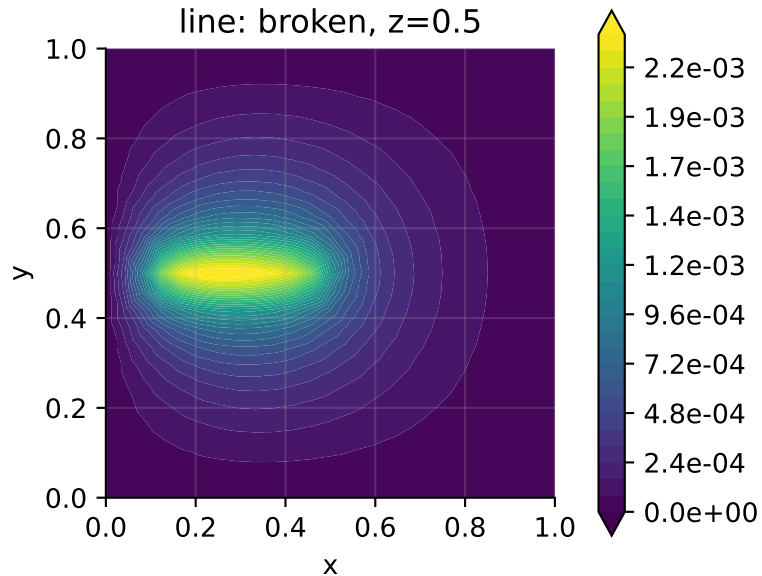

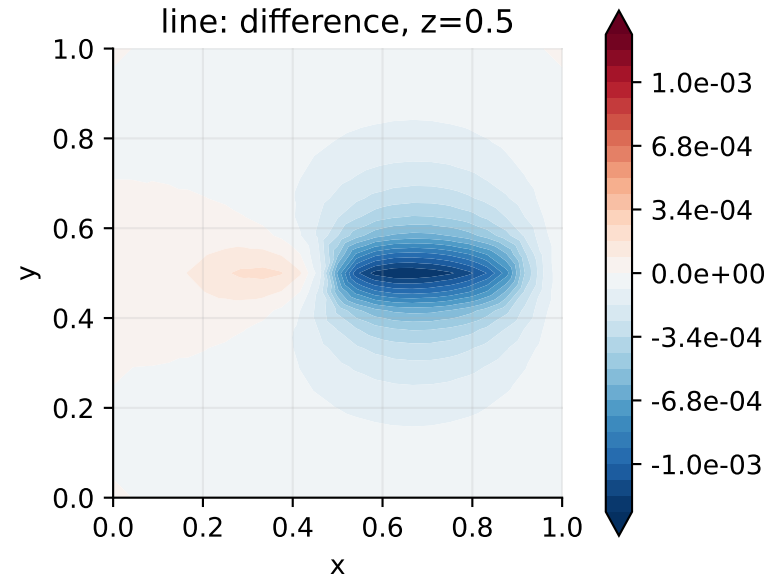

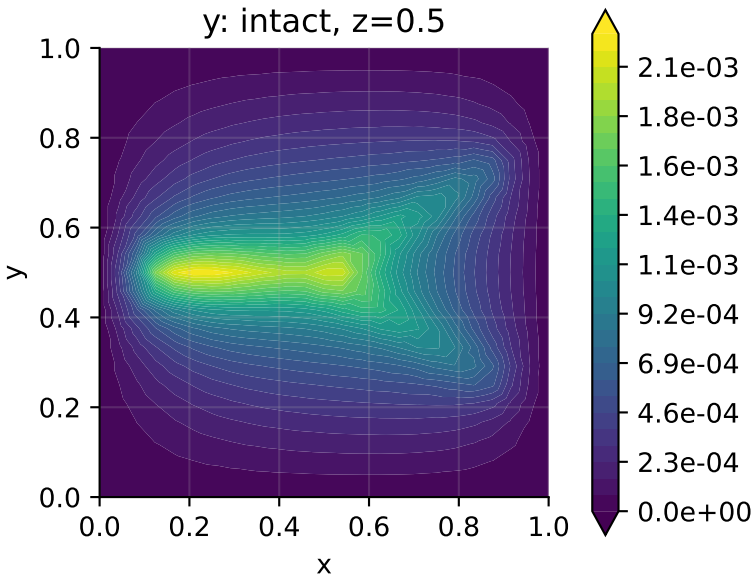

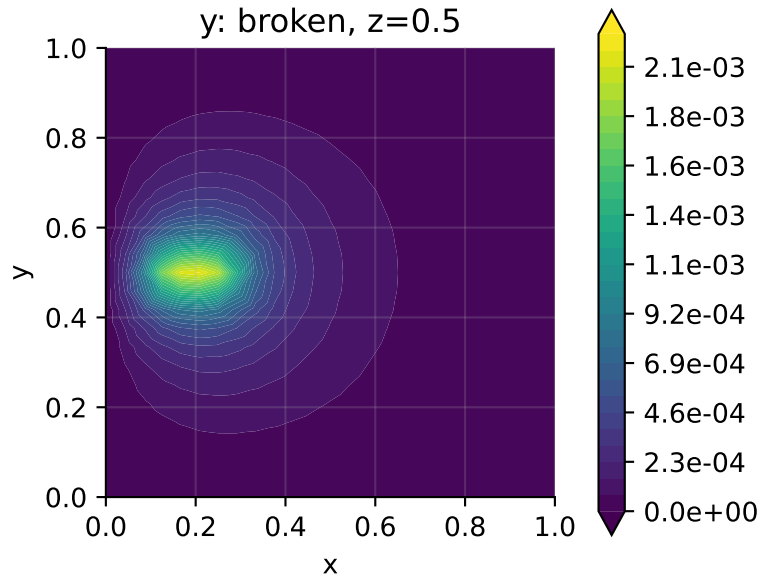

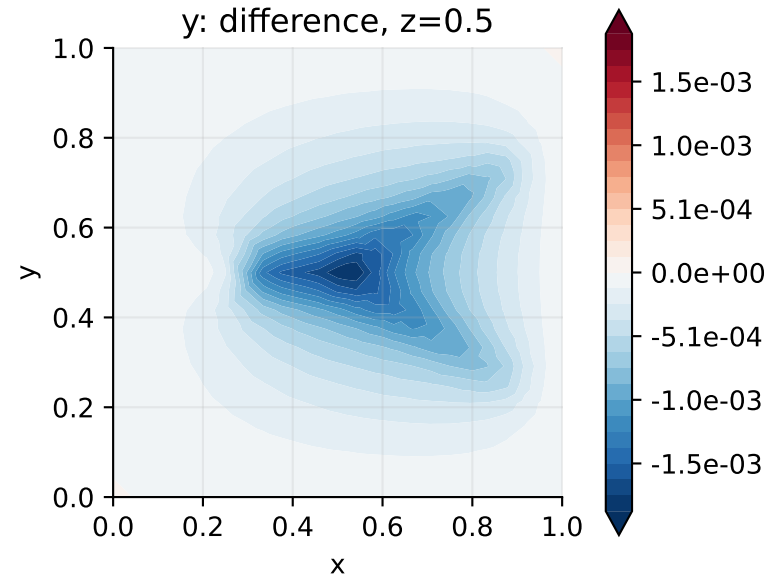

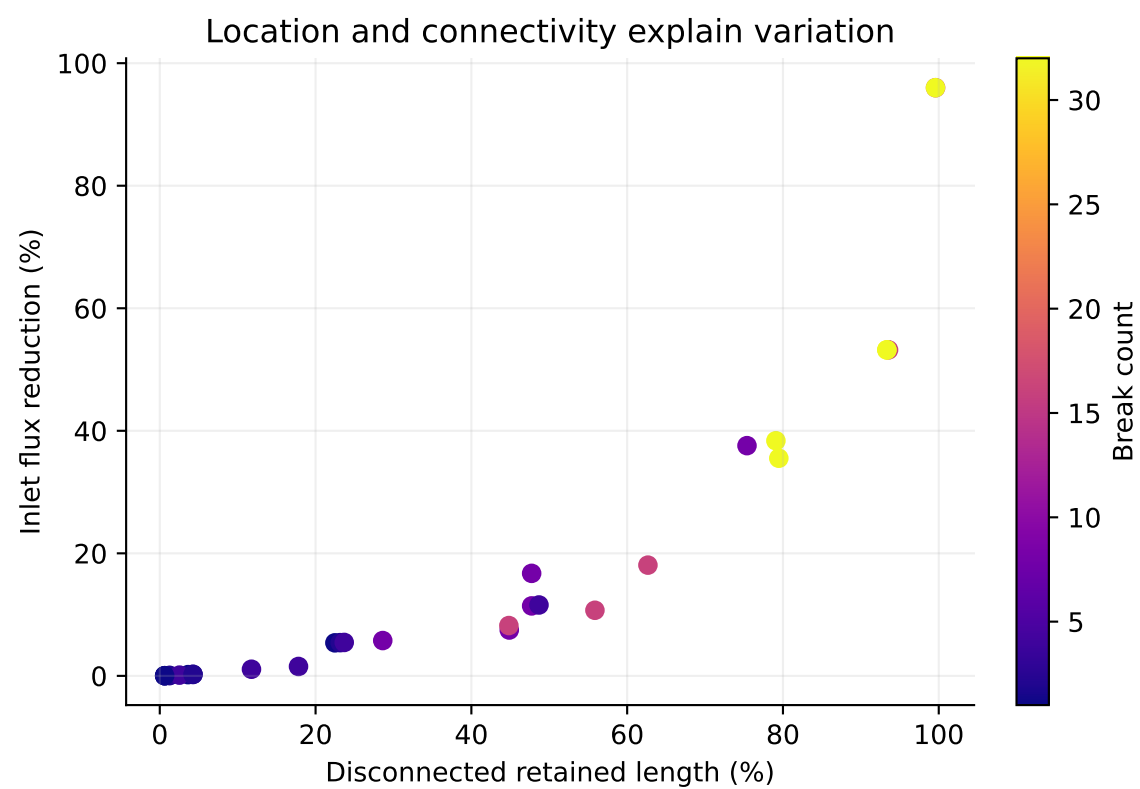

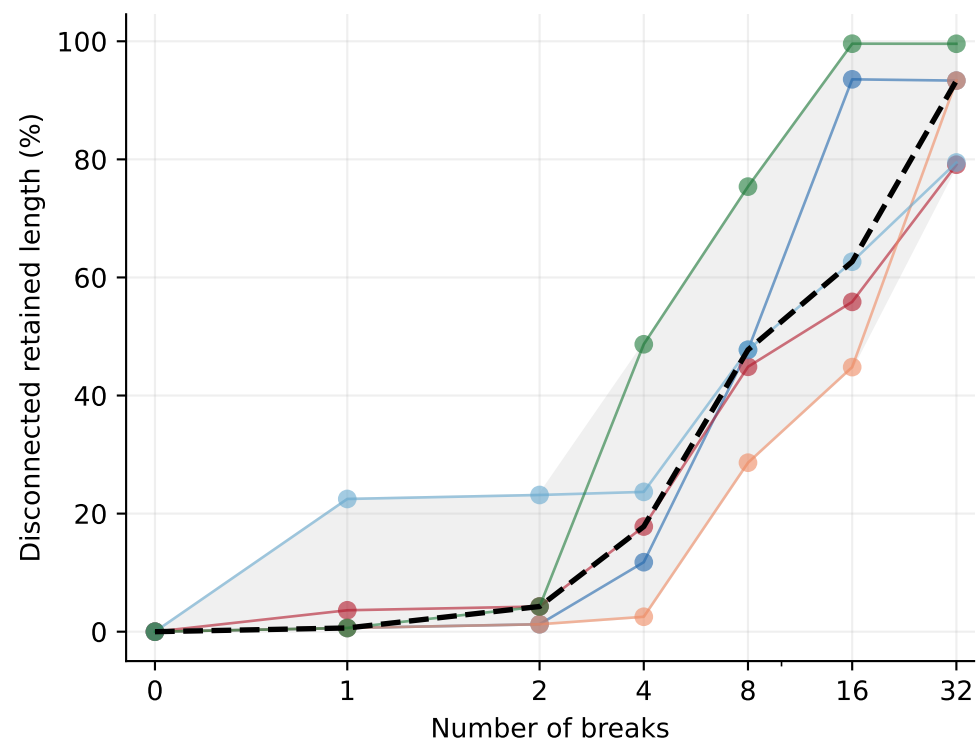

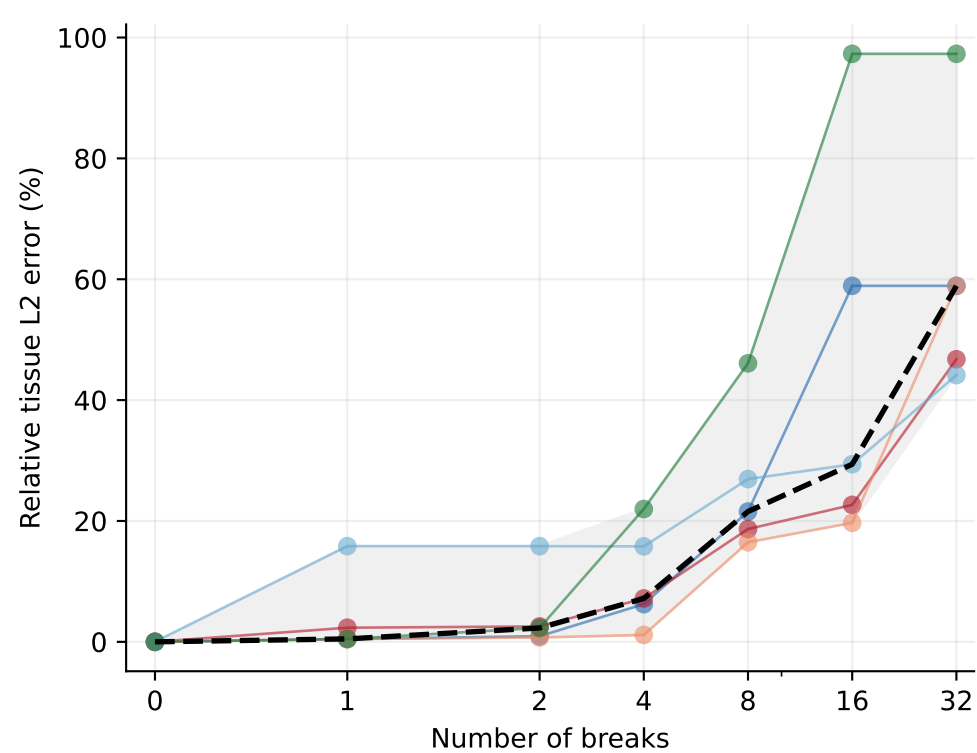

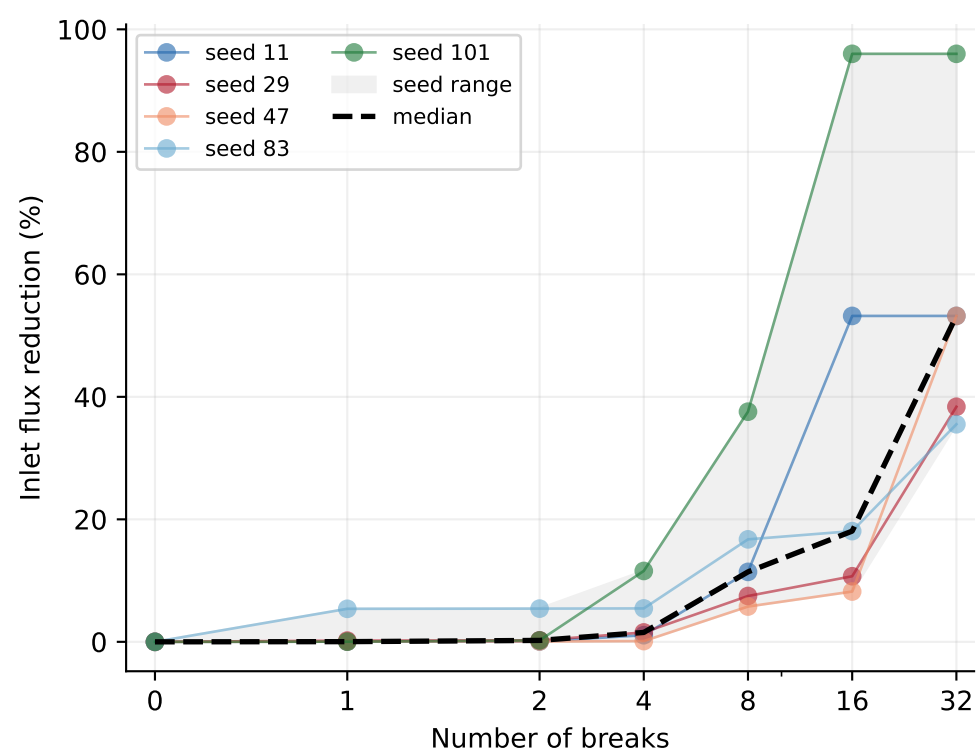

Y: global exchange response

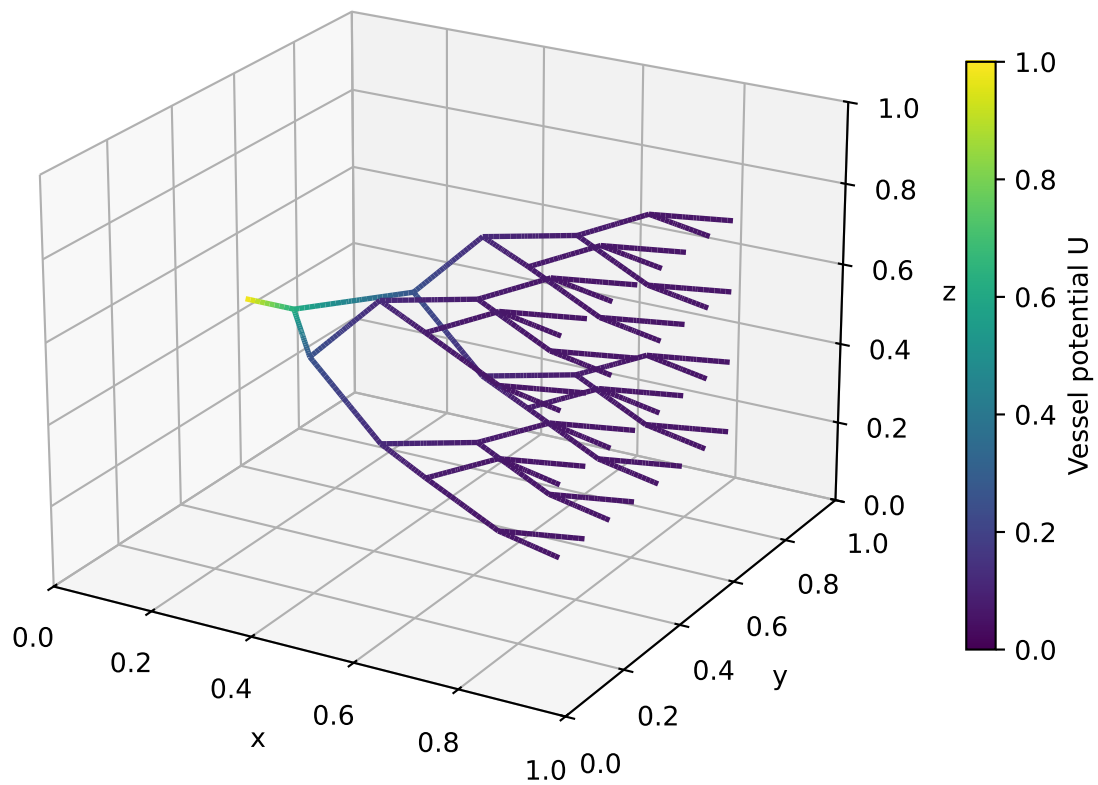

Y: change in tissue potential

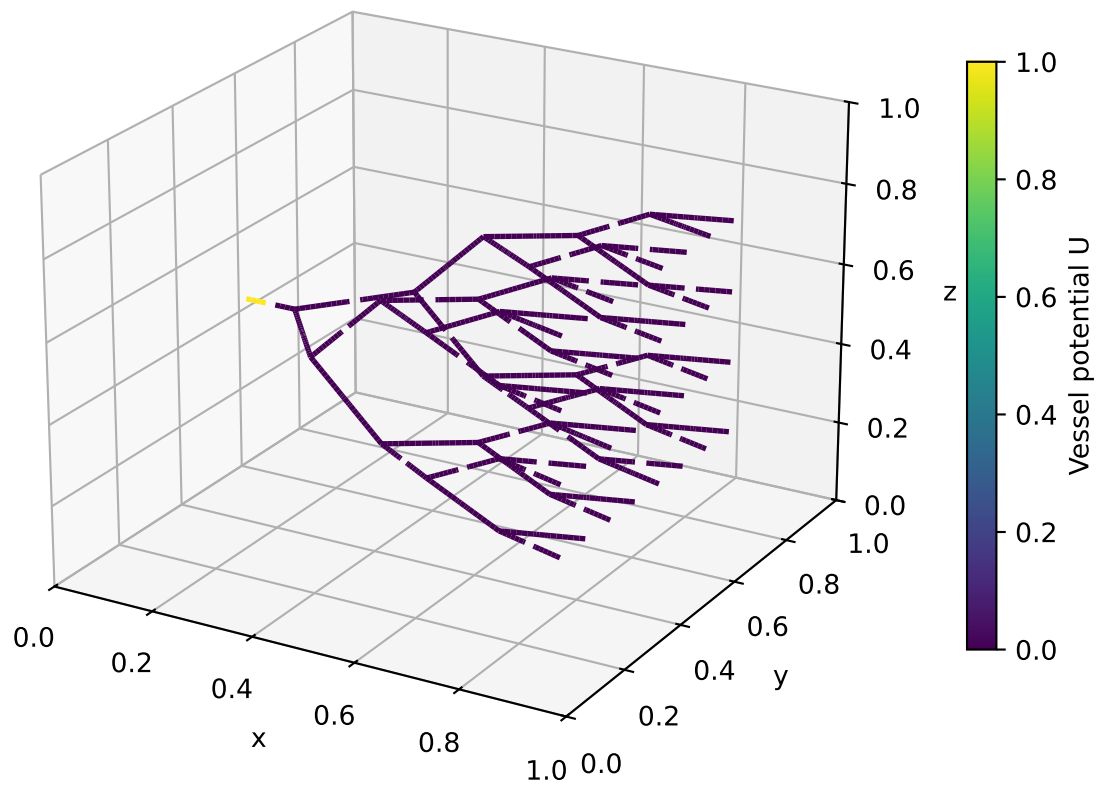

line: intact, $z=0.5$ line: broken, $z=0.5$ line: difference, $z=0.5$ y: intact, $z=0.5$ y: broken, $z=0.5$ y: difference, $z=0.5$ 

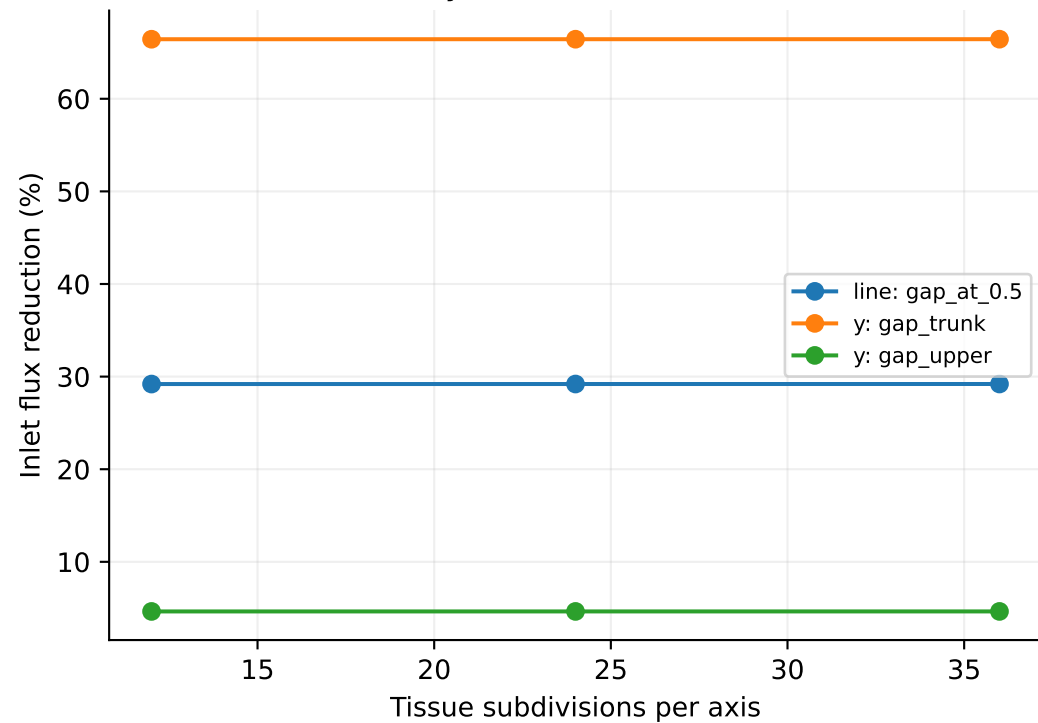

Intact tree

32 breaks, seed 101

Sensitivity versus tissue resolution

Closed-form limit check
